FLOATING
OFFSHORE
WIND UK

Deeper Waters Require Deeper Insight

Prepare for the Floating Offshore Wind Evolution

RenewableUK and Scottish Renewables in partnership with the Scottish Government and Offshore Renewable Energy Catapult present a premier event dedicated to floating offshore wind.

Floating Offshore Wind will bring together project developers, manufacturers, financiers, ports, supply chain companies and technical experts to discuss the substantial opportunity this technology represents for supply chain companies and the global industry.

- **Get the latest updates on floating offshore wind**
- **Hear about future opportunities and lessons learnt**
- **Highlight how you can contribute in this sector**

Attendees will benefit from the opportunity to connect with all floating offshore wind players in one location, learn about current progress and opportunities, and get insight into future trends and policy needs for the sector.

Who should attend

Companies already involved in development and delivery of projects. Those who want to break into the sector and understand supply chain opportunities, and those wanting to learn more about growth of floating offshore wind.

Promote your company

Book space to anchor your company at the heart of floating offshore wind. You will gain excellent exposure in a rapidly evolving part of the offshore wind industry.

Exhibition space is very limited. To learn more and reserve your stand contact David Moyle on 0207 901 3011 (david.moyle@renewableuk.com) Alternatively visit www.events.renewableuk.com
