

# Offshore Wind Logistics Theatre

# Global Offshore Wind 2019

## UK is the leading the global market for offshore wind

- UK is the largest offshore wind market in the world with installed capacity, 7.9GW
- UK is leading on technical innovation – the first floating offshore wind farms in UK waters
- UK is exporting offshore wind goods and services to 22 countries – our expertise is in demand worldwide
- The global offshore wind market is expected to be worth £30 billion a year by 2030
- UK is expecting to secure £5 billion of this as the dominant player

## Global Offshore Wind 2019 – an industry owned event

- Supporting the supply chain - generate more business interactions
- Showcasing excitement and innovation in the sector
- Multiple theatres and channels to present your expertise and experience
- Outstanding quality and value – event run for the industry by the industry
- Stronger message to UK and Global Governments and stakeholders
- Global event with over 40 countries represented

# Global Offshore Wind 2019 | 25-26 June | ExCeL London

2800 attendees

150 exhibitors

200 speakers

40 countries

I cannot remember a time when the industry has felt so buoyant, with real opportunity ahead of it. We are at a critical moment as we work towards a sector deal with the UK Government, but the vision of 30GW by 2030 and 50GW by 2050 really is achievable, and Global Offshore Wind 2018 promised real opportunities to move closer to making it a reality.”

**Andrew Jamieson**

Chief Executive, Offshore Renewable Energy Catapult

# Owners, Developers, Manufacturers & Supply Chain

## Market overview

The offshore wind market is worth 30 billion in 2030 and requiring dedicated engineering solutions, investments, plant and equipment coupled with logistical expertise

The heavy lifting and logistics industry requires a voice in the Offshore Wind marketplace.

## Diversity across the sector

The Global Offshore Wind exhibition and conference attracts all tiers of the marketplace bringing opportunities for the Heavy Lifting and Logistics supply chain to interact and present the integral role in delivering Offshore Wind for the future volume and scale.

## Bridging all markets

With delegates, conference speakers and exhibitors from the worldwide marketplaces, the UK's only dedicated offshore wind exhibition provides international B2B networking and sales opportunities increased furthermore with trade delegations looking to the UK and Europe to support home markets in Japan, China, Korea and USA.

# The Logistic Theatre
